ABOUT US

Tatmeem aims to become a major instrumental role in driving the Country's infrastructure development, economic growth and technological advancements. Our expertise, experience and integrated approach makes us valuable partners for clients seeking to execute complex projects efficiently and sustainably. Since it's inception in 2016, Tatmeem has been successfully supported to numerous turnkey projects across Saudi Arabia.

Tatmeem middle east co. Ltd is a company owns and operates across Kingdom of Saudi Arabia. Tatmeem is emerging group of companies targeting to be an inevitable part of the industry with our presence in every relevant sector of the local economy. Tatmeem has become a prominent player in the respective arenas which is engaged in construction, contracting, testing & commissioning and specialized manpower services provider.

Tatmeem is operating in the industry at our best with an obligation to society and the Nation. The perfect blend of technology and professional management are our strength. Tatmeem is managed by a team of professional engineers having vast experience in the oil, gas and petrochemical sectors.

Tatmeem stands as a reliable contractor to various projects (construction & maintenance) of Saudi Aramco, Saudi Electricity Company & Sabic affiliates. In addition, Tatmeem provides Aramco certified / approved manpower (rigger, work permit receiver, safety officer, safety supervisor, QC inspector, QC supervisor).

We thank our prestigious clients for their trust, management and other entire workforce of the group for their dedicated service.

VISION

To be the premier integrated provider of engineering, procurement, construction, maintenance and manpower solutions, shaping Saudi Arabia's infrastructure landscape with unwavering commitment to excellence, innovation and sustainability.

MISSION

To spearhead Saudi Arabia's infrastructure advancement with comprehensive EPC, maintenance and manpower solutions, fostering sustainable progress and economic growth.

QUALITY POLICY

At Tatmeem, quality is not just a goal, it's our way of life. We are committed to delivering exceptional quality in all aspects of our engineering, procurement , construction , manpower and maintenance services .Through our unwavering commitment to quality, we aim to consistently deliver exceptional projects that meet the highest standards of quality, performance and client satisfaction.

HEALTH & SAFETY POLICY

Tatmeem's goal is to have zero fatalities and no incidents that harm people or create an unsafe environment, whether in offices or on sites. We educate all members of the organization to adhere to best practices in safety, health and environmental policies and procedures that prevent human suffering and economic losses arising from preventable causes. Tatmeem is committed to ensuring all safety rules are understood by our employees and are implemented to maintain a safe working environment.

ENVIRONMENTAL POLICY

At Tatmeem, we are committed to minimizing our environmental impact and promoting sustainable practices in all aspects of our engineering, procurement and construction activities. We are committed to operating in a responsible manner that protects our planet for future generations. Through our solid commitment to environmental stewardship, we aim to minimize our environmental footprint, promote sustainable practices and contribute to a healthier and more sustainable future for all.

SUSTAINABILITY POLICY

At Tatmeem, we are committed to integrating sustainability principles into all aspects of our activities, balancing economic growth with environmental responsibility and social progress. We recognize that the sustainability of our business is inextricably linked to the sustainability of the planet and the well-being of society. Through our persistent commitment to sustainability, we aim to create a legacy of environmental responsibility, social progress and economic prosperity for generations to come.

CONSTRUCTIONS

1. Buildings

Building construction work includes construction of:

- » Office and commercial buildings, clinics, schools, laboratories, dining halls, support shop buildings and security gates.
- » Highrise buildings having more than 12 floors, iconic landmarks/buildings and hospitals.

2. Residential housing

Residential housing construction work includes construction of residential housing compounds. The definition of a residential compound is a complex of community villas (250 villas minimum) and associated community utilities and services such as: schools, community buildings and parks.

3. Onshore pipeline

Onshore pipeline construction work includes construction of:

- » Cross country hydrocarbon pipelines and all associated pipeline earthworks and rights of way.
- » Water injection pipelines and all associated earthworks and rights of way.
- » Wellsite trunk lines and flow lines to gas-oil separation plants (GOSPS) and all associated pipeline earthworks and rights of way.
- » Oil and gas pump stations.

4. Site preparation and temporary facilities

Site preparation and construction work for temporary facilities includes the following:

- » Site preparation: clearing and grubbing, rough grading, leveling and compaction.
- » Landscaping (hard and soft): paved areas such as streets and sidewalks, traffic circle, driveways, retaining walls and soft-scape, which includes grass, plants, trees, flower beds, etc., along with installation of water sprinkler and irrigation/drainage and systems.
- » Temporary facilities: temporary access roads and storm drainage system. Temporary security fences and gates and temporary camps: portable housing, kitchens and utilities, water supply and treatment system, fire water, temporary fire station, lighting, first aid utilities and all other support facilities required in temporary facilities intended for projects under construction.

5. Civil infrastructure and underground utilities

Civil infrastructure and utilities construction work includes construction of:

- » Highways and city roads, bridges and tunnels.
- » Underground utilities: underground piping and electrical utilities, district cooling plant, storm water construction, drilling water wells and water and sanitary sewer distribution and drainage underground systems.
- » Fire protection systems including fire stations.

6. Electrical work

Electrical construction work includes construction of electrical substations, power distribution grids, installation of transformers and circuit breakers/ switchgear and all associated instrumentation and interconnections.

7. Cathodic protection

Cathodic protection construction work includes construction of galvanic anodes, impressed current cathodic protection (ICCP) system installation and all associated site preparation and earth works. Precommissioning of each individual piece of CP equipment. This includes turning on the rectifiers and solar systems and verifying that each anode is properly connected. Provide commissioning schedules in accordance with SAEP-332 "cathodic protection commissioning" appendix A to K, verifying the proper installation and operation of the new CP system(s).

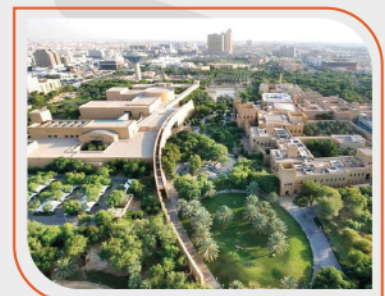

8. Communication work – outside plant (OSP)

Construction work for communications work OSP includes construction of fiber optic cables and copper cables, concrete encased conduits, direct buried conduits/cables, manholes, terminals, cable marker, grounding, tagging, cable splicing and testing and associated earth works.

9. Saudi Green Initiative (SGI)

Saudi Green Initiative supports Saudi Arabia's ambition to reach net zero emissions by 2060 through the Circular Carbon Economy approach and is also accelerating the country's transition to a green economy. Three overarching targets guide SGI's work - emissions reduction, afforestation and land & sea protection. Tatmeem is committed to participate with an active role in this initiative.

ELECTRICAL DIVISIONS

The electrical division is ready to carry out all types of electrical system in accordance with the national and international standards to the top quality, efficiency, productivity and to the satisfaction of our clients.

1. Lighting system.

» Indoor lighting system.

» Outdoor lighting system.

» Street light.

2. Telephone & data systems & CCTV

» FO cable laying & termination.

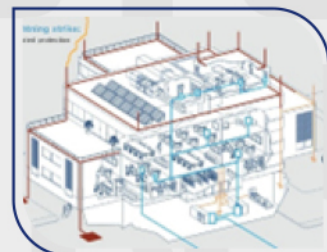

» Cat-6 cable & termination.

» Data monitoring system.

3. Earthing

- » Earth mesh installation.
- » Lightning earthing.
- » Strip earthing.
- » Equipment earthing.

MECHANICAL DIVISIONS

1. HVAC

- » PACU unit installation.
- » DUCT fabrication & installation.
- » DUCT insulation work.
- » HVAC testing work.

2. Fire fighting systems

- » Wet fire sprinkler systems.
- » Dry pipe systems.
- » Special hazard fire protection systems.
- » Dry chemical fire suppression systems.
- » Gaseous fire suppression systems.
- » Foam fire suppression systems.

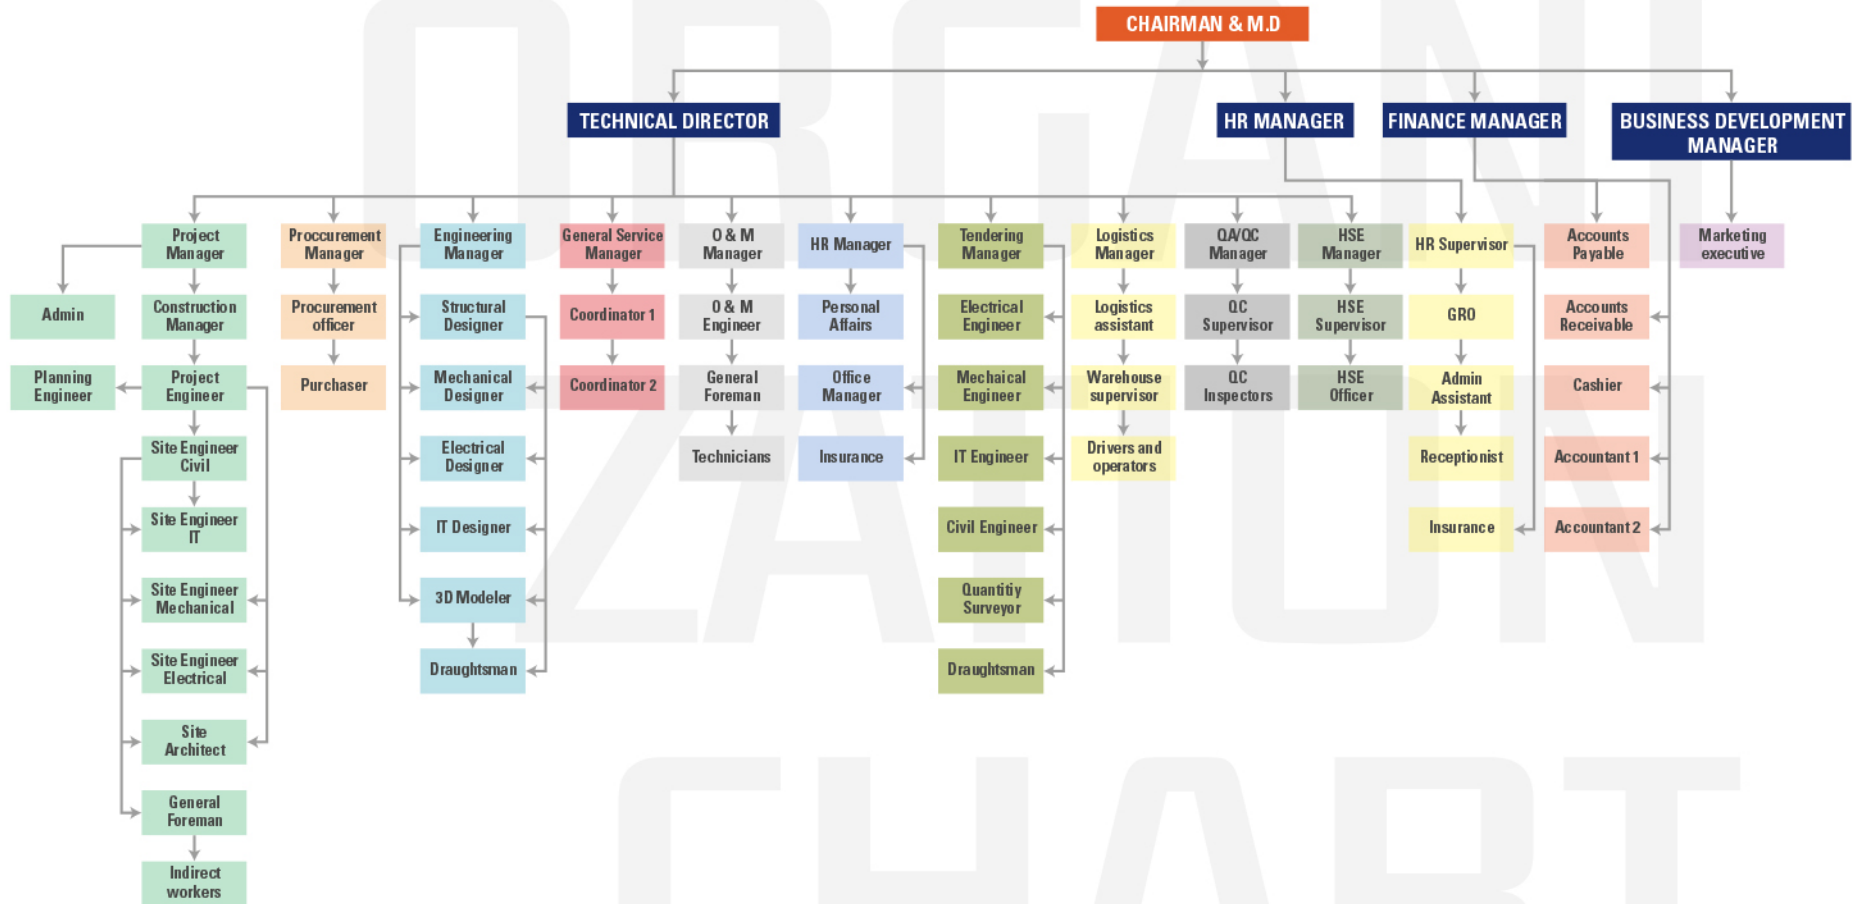

ENGINEERING DESIGN SERVICES

We are providing electrical engineering design services for substation, oil & gas and process plants.

- » Electrical primary- EHV,HV,MV & LV system.
- » Protection and control systems.
- » ETAP & Arc-flash system studies (LFC,RTCC,AFC & MS).
- » Protection coordination study & relay setting for all voltage levels.
- » Advance site survey analysis of existing system for optimized design.
- » Civil & structural design.
- » Electrical instrument design and integration with process control system.
- » ILD, PID, logic diagram preparation.

APPROVAL LETTER

Saudi Aramco E-Reference No. 0008270

Registration Approval Letter

January 24, 2024

Attention : TATMEEM MIDDLE EAST CO., LTD

CR Number : 2051241853

Supplier Type: Service Provider Only

Country : Saudi Arabia

We are pleased to inform you that TATMEEM MIDDLE EAST CO., LTD is now registered in the Saudi Aramco Supplier Management System under Vendor Code No. 10110811, provided your company continues to meet all relevant Saudi Arabian and Saudi Aramco standards.

This registration, however, should not be construed as a commitment by Saudi Aramco to procure from you. Being registered as a supplier only grants your company the opportunity, along with other registered sources, to respond to requests for submitting proposals in accordance with Saudi Aramco's established policies and procedures. All procurement instruments including but not limited to service contracts, purchase agreements, or purchase orders will be issued based on the name and address included in your commercial registration (CR), as stated in your Supplier Registration.

Saudi Aramco wishes to remind you that being recognized as a supplier carries with it serious obligations and responsibilities to act in a legal and ethical manner. We wish to remind you of the Saudi Aramco Supplier Code of Conduct (SCOC) which you acknowledged. Failure to abide by the principles set forth in the SCOC can result in adverse actions being taken by Saudi Aramco against you including suspension of you as a supplier. Saudi Aramco also expects each of its suppliers to satisfy each of the requirements of any procurement instrument which might be placed and to act responsibly and reliably as a supply chain supplier.

Material Suppliers should apply for Saudi Aramco Supplier Portal access by forwarding a request to portal-registration@aramco.com. The Supplier Portal is the main electronic business tool used between Saudi Aramco and its suppliers and serves to improve the flow and accuracy of key supply chain information.

For further information or assistance please contact the Saudi Aramco Supplier Help Desk by forwarding a request to SupplierHelpDesk@aramco.com or via the unified call center 800-116-1168 for In-Kingdom suppliers or +966 (11) 290-8950 for Out-of-Kingdom suppliers.

Moamar Khazal Al Usaimi, Supervisor
Supplier Registration Unit
Supplier Relationship Management Div

It is the responsibility of the supplier to update Saudi Aramco Supplier Registration Profile through Ariba for the following:

1. Change of Name / Commercial Registration Number / Address / Owner(s)
2. Any change of the supplier location
3. Discontinue supply of approved commodities (9COMs and 9CATS)

This is an electronically generated letter by Saudi Aramco. To verify Supplier approval status, please contact Supplier Help Desk at supplierhelpdesk@aramco.com
